VANDALIA LINES MAY START MORE STRIKE TROUBLE

DISCHARGED OPERATOR MUST
BE REINSTATED OR O. R. T.
GOES OUT.

OPERATORS STILL STRONG

Railroad Operators Likely to be Cal-
led Out at Rockville Most
Any Time.

Chicago, Aug. 21.—Claiming greater strength than at any time since the strike began, the telegraph operators today declared as false and malicious reports to the effect that they were dissatisfied with the conduct of the strike and were willing to return to work. In one or two cities an occasional operator has gone back to his key and thereupon the Western Union and Postal, together with the Associated Press, announced a break in the ranks of the operators.

This morning a leader of the operators, said: "Not only have we not returned to work, but we have agreed to refuse to work for the Associated Press at any time unless the union wins this fight in full. We will quit the telegraph business before returning to their offices."

A strike of railway telegraphers would be called to force a quick settlement if the union officials felt that their men showed any sign of weakening. Such a strike is not desired by the union but the O. R. T. men have signified their willingness to act if it is deemed necessary.

Two men discharged by the Vandalia railroad at Rockville, Ind., have demanded reinstatement. C. H. Wilson, chairman of that division of the Order of Railway Telegraphers, went today to Rockville to secure the reinstatement of the men. He says if he fails the O. R. T. strike may start from that point.

SERVICE IS BAD.

Chicago, Aug. 21.—Almost complete prostration of telegraphic service in the northwest was shown as soon as the board of trade opened today, the government being able to reach only two points on the weather list which it normally posts on the board of trade. The points reached were Moorhead, Minn., and St. Paul.

POSTAL OFFICES ATTACKED BY MOB

Los Angeles, Cal., Aug. 21.—An armed mob attacked the office of the Postal Telegraph company at Ashfork, Ariz., and broke every window in the building with a rain of bullets. The lives of four of the employees were endangered, but so far as known no one was injured. The last dispatch from Ashfork stated that arrangements were being made by the manager of the office at Ashfork to run a special engine to Prescott, the county seat of Yavapai county, to bring the sheriff and a sufficient number of deputies to quell the riot. Vice President Nally of the Postal company wired from New York that he had taken the matter up with the federal authorities at Washington.

President Small to Go East.

New York, Aug. 21.—President Small of the Commercial Telegraphers' union will come to New York Saturday and take personal charge of this strike stronghold. The announcement, which was made by Deputy President Thomas, was greeted with cheers by the strikers. Although the company officials and the local strike leaders have refrained from arbitration suggestions, it is not unlikely that a move to settle the strike will follow President Small's arrival. National arbitration experts, including President Gompers of the American Federation of Labor, and Commissioner of Labor Neill, will likely be in New York by the time President Small comes from the west.

Claim the Strike is Over.

New York, Aug. 21.—Officials of the Western Union and Postal telegraph companies state that they are handling business without congestion, and that so far as the companies are concerned the strike is over. Daniel Russell, who has charge of headquarters of the telegraphers' union, disputed the statements made by the telegraph officials, and declared that if the strikers stand firm they are bound to win. Mr. Russell said the companies will be forced to meet the demands of the men.

Ran Down a Peddler.

Louivers, France, Aug. 21.—While Joseph C. Fritz, an American, was driving a powerful automobile near here, he ran down and killed a peddler. The machine swerved and was wrecked. Fritz was thrown out and sustained a fractured skull. He was removed to a hospital, where his condition is said to be desperate.

NATIVES DEFEATED.

London, Aug. 21.—The sultan's troops have defeated a great force of natives engaged in the present anti-foreign uprising according to a dispatch to the Central News from Tangier. The rebellious natives suffered great loss. Several of their villages were burned and looted. The tribesmen were completely routed and scattered by the loyal army. Another attack on Casa Blanca has been defeated by the French, according to the same news agency.

PLOT TO KILL THE KING OF PORTUGAL

Lisbon, Portugal, Aug. 21.—An extensive plot to assassinate King Carlos and Premier Pimenta was discovered today through the explosion of a bomb in the tenement district of the city. Two persons were killed and two fatally injured by the explosion.

As a result of the police discoveries, 30 republicans have been arrested. They were taken secretly aboard the cruiser Adamaster, in the Tagus river, where they are now confined.

Joseph Bettencourt, a medical student, is declared by the police to have been leader of the conspiracy. It was in his room that the explosion occurred, and he was making bombs at the time.

GERMANY IS NOT FRIENDLY TO FRANCE

Berlin, Aug. 21.—Relations between France and Germany, which were never too friendly, promise to become strained through the declarations of refugees from Casa Blanca, that the French were to blame for the recent massacres there.

Sum of \$250,000 Stolen From Mail
Train and Chicago People
Are Suspected.

Chicago, Aug. 21.—An arrest in Chicago before nightfall by U. S. postoffice inspectors is predicted as the result of the federal secret service men's efforts in trying to solve the mystery of the disappearance of \$250,000 in three mail bags, which were being shipped from Denver to Chicago on a Burlington mail train. The inspectors learned that a package believed to contain part of the pelf passed through the Chicago postoffice, directed to a person in this city.

TAFT AT BROTHER'S IN CINCINNATI, O.

Cincinnati, Aug. 21.—Secretary of War W. H. Taft arrived in Cincinnati Tuesday night and remained at the home of his brother, Charles P. Taft, until Wednesday afternoon, when he left for Lexington, Ky., where he will deliver a speech Thursday. Secretary Taft said Wednesday: "My Lexington speech will be along the same lines in a general way, as my speech at Columbus, only that I will have something to say on the Philippines. I have not prepared the speech, but will work on the outlines of it before leaving for Lexington. I was delighted with my Columbus meeting. It was a great crowd. There is nothing I can say of politics, and the other questions of the day were pretty well talked out in my speech Monday night."

LAYING CORNER STONE OF PEACE PALACE.

M. NELIDOFF LAYING THE CORNER STONE OF THE PALACE OF PEACE

NEW YORK, Aug. 21.—A scene already related in the Herald's special cable dispatches, the Palace of Peace was begun by M. Nelidoff, president of the Conference, amid the assembled representatives of forty-seven nations. This palace, which owes its initiative to the generosity of M. Carnegie, is destined to become the seat of future international courts of arbitration. It is situated not far from Schuyleningen, in the neighborhood of The Hague. A French architect, Mr. Louis Cordouner, of Lille, is charged with its construction.

NECK BROKEN WHEN TOOTH WAS PULLED

Chicago, Aug. 21.—George Davis, 38, died in the county hospital of what was diagnosed by the physicians as a broken neck. Davis came to the hospital one week ago complaining of a pain in his neck. His right arm was paralyzed, and the day following his arrival he was attacked with severe pains in the spinal column. He told the physicians at the hospital that he had gone to a dentist to have a tooth extracted. The tooth was difficult to extract, and Davis said that the dentist had jerked him severely. It is believed by the physicians that the dentist dislocated a portion of the spinal column in the neck by his jerks.

STANDARD SAYS IT IS GUILTLESS

ISSUES STATEMENT ON ALTON
CASE FOR STOCKHOLDERS
AND EMPLOYEES.

Claims Verdict Was Secured on Hair-
splitting Technicality—Flays
the Newspapers.

New York, Aug. 21.—The directors of the Standard Oil company issued a pamphlet to its employees and stockholders relative to the fine of \$29,240,000 imposed on the Standard Oil company of Indiana. The pamphlet contains a statement from President Moffitt of the Standard Oil company of Indiana and a number of editorial articles favorable to the company, taken from various American newspapers. The especially noteworthy feature of the pamphlet is its introductory statement, which is as follows:

The directors of the Standard Oil company, in printing this pamphlet, desire to emphasize for the half million people, directly interested in its welfare, the assurance of the company's absolute innocence of wrong doing in any of the prosecutions lately instituted against it in the federal courts. Particularly is this so in the present Chicago & Alton railroad case made notorious by the sensational fine of \$29,240,000 imposed on the Standard Oil company of Indiana. It should be known as widely as possible that this is not a case of reprobate or discrimination, but simply of the legality of a freight rate. It should be known that verdict was obtained by the government upon the

most hair-splitting technicality, aided by the rigorous exclusion of evidence that would have removed all presumption of guilt.

If the judgment in question be allowed to stand the company will be forced to pay \$20,000 (that is 50 times the value of the oil) for every car load carried over the Alton road during two years at an open 6 cent rate—a rate used over three competing railroads for from 10 to 14 years. The trial judge refused to allow proof that the six cent rate had been filed by the Chicago & Eastern Illinois, and was therefore a "legal rate."

The case has been on appeal to the higher courts, to which we must look for that calm judgment, which will rescue the rights of the citizen from the field of public clamor and from the domain of vindictive politics.

DISPUTE GOES TO THE HAGUE

Newfoundland Fisheries Muddle Sub-
mitted to Arbitration.

NEGOTIATIONS CONCLUDED

Most Important Case Yet Presented to
the Tribunal in Holland—British
Government Accepts Proposal of
Secretary Root—Peaceful Solution
of Trouble Now Certain.

London, Aug. 21.—The American government, which has taken the lead at the Hague peace conference in endeavoring to promote arbitration, will be responsible for giving the Hague tribunal the most important case yet submitted to it in the Newfoundland fisheries dispute, which undoubtedly will be taken there as a result of the negotiations conducted at London between the foreign office and the American ambassador, Whitelaw Reid. Both the foreign office and the embassy maintain diplomatic reserve, but it has been learned from unquestionable sources that the long correspondence between the two governments made it seem clear that their contentions could not be harmonized. Finally Mr. Reid presented a proposal to submit the dispute to the arbitration of the Hague tribunal, having the authority of President Roosevelt and Secretary Root to do so.

After a week or two of consideration, the British government accepted the proposal, and then the American government proposed that for another year, while the matter was in process of arbitration, the fisheries should be conducted as they were last year, under the same modus vivendi. There has been delay in concluding the arrangement. When the British government has secured the assent of Sir Robert Bond, the Newfoundland premier, to the agreement, Sir Robert undoubtedly will be reluctant to accept the modus vivendi which he opposed strongly last year. However, there is little doubt but that the agreement will be finally accepted.

Milling Plant Burns.

Chicago, Aug. 21.—The American Corn and Milling company's plant was destroyed by fire. Loss, \$200,000. There was a considerable amount of corn stored in the building and this, together with some expensive machinery, was completely destroyed.

The train left Denver with seven sacks and but four remained when it reached Oxford. Detectives and postoffice officials are at work on the case. Superintendent J. M. Butler of the sixth division of railway mail clerks, believes the robbery took place just west of the Nebraska line. Both mail clerks were asleep while the train was passing over long stretches of track with few stations. Butler believes some one slipped into the mail car and threw three sacks out of the window.

THE COUNTRY NEEDS MORE HARD WORKERS

President Roosevelt Delivers His
Speech at Provincetown, Mass.,
Yesterday.

Provincetown, Mass., Aug. 21.—At the reception in Old Fellows' hall here, following the laying of the cornerstone of the Pilgrim memorial, President Roosevelt said: "I am glad of the opportunity of seeing you. I believe in that type of citizen who is straightforward and decent. I never express sympathy with any man because he works hard. I admire him. I am giving you a lot of advice without knowing much of your calling, for I was brought up in a cow country and worked hard from the hurricane deck of a broncho. We need more hard working men, for they have qualities which we recognize not as good, but as making a man. We need such men in every walk of life, and it will be a sorry day for this country when the sons of Americans grow up to accept a life of ease and look upon absence of effort as desirable."

LIVED BUT TEN HOURS AFTER THE DEATH OF FRIEND

When He Selected To Act as His
Pall Bearer.

The friend whom he had chosen to act as pall bearer was Calvin Fordney, aged 73 years, who died suddenly yesterday while conversing with his family. CHICAGO POLICE ARREST A SUSPECT

Chicago, Aug. 21.—Henry Sheppard was arrested today upon suspicion of knowing something about the murder on July 31, by a burglar, of Albert E. Walsh, aged 22, who was killed while running to the aid of his sister, the young woman having discovered a masked man in her room. The prisoner is said to have served a term in the Iowa penitentiary. Witnesses were examined by the police today, who declare the man in jail was seen breathlessly inquiring for a train to leave a few minutes after Walsh was slain. SEN. FORAKER ON SEC'Y TAFT

Georgetown O., Aug. 21.—A large crowd heard Senator Foraker at the Georgetown Chautauqua this afternoon when he made a lengthy address much of which was in reply to Taft's Columbus speech. He said the controversy with Roosevelt was as to whether a public servant should do his own thinking or not. He said if Taft is correct in saying that there are evils in the tariff it should be removed at once and not 18 months hence.

He declared the great body of Republicans do not want the tariff revised. He also declared the railroad rate bill instead of strengthening, weakens the Elkin's bill.

Many Newark people have heard the young man and looked forward with much pleasure to his appearance in this city this winter.

WALL ST. STIRRED BY SPEECH OF SECRETARY TAFT

ROOSEVELT ALSO AROUSES
THE MONEY KINGS IN NEW
YORK YESTERDAY.

A CONFLICT IN OPINION

The Policy of Administration Towards Offending Corporations is Unchanged.

New York, Aug. 21.—Secretary Taft's speech, which Wall street chose to regard as the "keynote" of the next national campaign, and President Roosevelt's Provincetown address were practically the sole topics of discussion in financial and speculative circles. There was naturally much conflict of opinion as to the significance of these important utterances. The situation was further complicated by the president's supplementary remarks in which he made direct reference to existing financial conditions and declared with much emphasis that for the remainder of his tenure of office the governmental policy with regard to the prosecution of offending trusts and corporations would be unchanged.

Business on the local exchanges was halting and uncertain and operations were again in moderate volume. The undertone was uncertain, but the fact that the market became dull on all marked recessions was regarded as a favorable sign by the market experts. London seemed disturbed at the tone of Secretary Taft's speech and our securities were lowered in that market, where a further drop in consuls was recorded. Other continental markets were unsettled, Berlin apparently fearing a further advance in the Bank of England's discount rate on Thursday, which would doubtless be followed by similar action on the part of the imperial bank of Germany. The Paris market was somewhat uneasy over latest developments in the Moroccan situation and Amsterdam and Frankfurt unloaded Americans in London. To further safeguard its reserves the Bank of England bought a small amount of gold in its local market.

President Roosevelt in his Provincetown speech stated that he would fight the evil trusts to the end, and suggested imprisonment for offenders instead of fines. He said:

Roosevelt's Words.
"Once for all, let me say that as far as I am concerned, and for the 18 months of my presidency that remain, there will be no change in the policy we have steadily pursued, or let-up in the efforts to secure the honest observance of the law, for I regard this contest as one to determine who shall rule our country, the people through their governmental agents, or a few ruthless, domineering men, whose wealth makes them particularly formidable because they hide behind the breastworks of corporate organization. I wish there to be no mistake on this point; it is idle to ask me not to prosecute criminals, rich or poor, but I desire no less emphatically to have it understood that we have sanctioned and will sanction no action of a vindictive type, and above all no action which shall inflict great and unmerited suffering upon innocent stockholders and upon the public as a whole."

The president asserted his belief that the particular disturbance on the New York Stock Exchange was for the most part due to matters not particularly confined to the United States and matters wholly unconnected with any governmental action. He suggested another rich man's conspiracy, saying: "The government, gentlemen, will not waver to punish certain malefactors of great wealth who may have been responsible for some of the troubles in the stock market, at least to the extent of having caused men to combine to bring about as much financial stress as they possibly can in order to discredit the policy of the government and thereby secure a reversal of that policy so that they may enjoy the fruits of their own evil doing."

Mikado Satisfied.
Tokyo, Aug. 21.—Marquis Ito has been honored by receipt of the following imperial rescript: "We, being solicitous of the maintenance of peace in the far east, intrusted you with the management of Korean affairs, and are satisfied with the convention which has been concluded by your earnest efforts."

NO ONE CENT RATE FOR THE OLD SOLDIERS

RAILROADS WILL CHARGE CENT AND A HALF PER MILE TO SARATOGA.

Southern To Buy Much New Equipment—Government to Ask For Cut Rates.

Up to the present time the Grand Army has been given rates of one cent a mile during the reunions, but this year all railroads will advance transportation rates to Saratoga Springs, where the next reunion is held in September, to 1 1/2 cents a mile. This will mean an increase of about \$10 a ticket from Chicago.

New Equipment.
It is officially announced that the Southern railroad will purchase 50 locomotives, 75 passenger coaches, 4 dining cars, 6 combination mail and baggage cars, 6 combination baggage and passenger coaches and cabooses.

Government Wants Rates.

Since some of the railroads of the country have been giving cut rates to parties traveling to and from different points, the war department thinks it should be given cut rates for troops, and will ask this concession from the railroads. The question was recently referred to the interstate commerce commission, which has now advised the quartermaster general that it now rests entirely with the railroads.

Forbid Advertisements.

The New York Central lines have issued a circular notice to all freight agents as follows: "Under the master car builders' rules, effective September 1, we are prohibited from placing advertisements on cars. It is desired that agents notify shippers accordingly. In doing this, great care must be used not to offend shippers, but to explain to them why we are obliged to take this step and that it is general with all roads. After Sept. 1 agents or yardmasters should remove these advertisements before forwarding cars."

New Trolley Line.

Local tractions here have received word from Warren that the Muskingum Valley Traction Co. has just organized under the laws of Ohio, and is building a line up the Muskingum river from Marietta to Zanesville. The road will be completed as far as Beverly by next spring, and will eventually connect with the line from Zanesville, thus establishing traction communication with Newark and all of the larger cities of Ohio.

Contest Ended.

The contest between the Baltimore and Ohio and the Hill-Morgan interests for possession of the Chicago Terminal Transfer Railway Co. is stated, has ended. An agreement has been reached by virtue of which the Baltimore and Ohio and Chicago Burlington and Quincy systems will become joint owners of the Chicago Terminal, and will use its facilities in accordance with an equitable division of its trackage.

Railroad Notes.

BRUTAL CRIME

Farmer's Wife and Servant Murdered. Negro Suspected.

Camden, N. J., Aug. 21.—One of the most brutal crimes ever perpetrated in this part of New Jersey was committed on the farm of Edward Horner, near Merchantville, when a negro murdered Mrs. Frances Horner, wife of a farmer, and their servant, Mrs. Victor Napoli, for the purpose of robbery. The assassin first set fire to the barn in order to attract the attention of the farmer's household and then rob the house unmolested. Charles Gibson, a negro answering the description of the man suspected, was arrested in Philadelphia, and on him were found two pawn tickets for watches. When the timepieces were located in a Philadelphia pawnshop one of them was found to contain the inscription, "Horner." The suspect was brought to Camden. When asked if he knew Horner he said: "Yes, I am sorry for him." Farmers hurrying to the fire saw a negro running from the house.

STUDENTS' YELL IN ENGLAND

Wales Institution First to Adopt American College Cheer.

The American college cheer has at last found favor in England, according to a London cable dispatch to the New York American. While the older universities of Oxford and Cambridge have been content to cling conservatively to the unwieldy ditties of a by-gone age, it has been left to the students of Bangor, Wales, to take an example from the new world. King Edward had his first real experience of the American college cheer on his recent visit to Bangor.

From his expression of concern when the sounds first smote his ears it was palpable that he was at a loss to understand whether the ovation was friendly or otherwise. At last it dawned upon him that the vociferous attentions were well meant, and a merry twinkle of appreciation appeared in his eye.

How closely the college cries of the United States have been imitated in England is evident from the Welsh innovation:

Hip, hip, hurrah! Hip, hip, hurrah! Hip, hip, hurrah!
Bravo! Bravissimo! Siss, boomderr! Siss, boomderr! Siss, boomderr!
Saberaboo! Saberaboo! Hullahaloo! Yah! College boys! Bangor boys! Yah! Yah! Yah!

WANTS ROOSEVELT FOR KING

Dr. McQueen Advocates Transforming America Into a Kingdom.

That America should be transformed into a kingdom and Theodore Roosevelt made supreme ruler is the startling declaration recently made at Ottumwa, Ia., by Dr. Peter McQueen, author and war correspondent, who is in the west on a lecturing and sight-seeing tour, says an Ottumwa special dispatch to the New York Times.

Dr. McQueen declares that the average American knows little about the significance of small government and cares less. He points to the ease with which millions purchase seats in the United States senate and asks "what the average citizen could do about the matter even if he were disposed to enter a protest."

"Americans have over conditions in other countries," continued the doctor, "and yet there is no country on earth where the poor are more oppressed or where the rich are more arrogant and overbearing. President Roosevelt is a great man, and the strength of his personality would be sufficient guarantee that he would make a splendid king of America."

MRS. FISH'S RAP FOR SOCIETY

She Sees Enough Monkeys Without Borrowing Them From Cages.

Despite the fact that Consul, the black chimpanzee from Africa, looks good to Newport society at large and has been elected a member of the Narragansett Pier casino, holding ticket No. 518, Mrs. Stuyvesant Fish is sorry she ever called to see the distinguished visitor, says a Newport special to the New York World.

"I am constantly surrounded by monkeys, and I don't care to see the real article," she said the other day.

Harry S. Lehr and Oliver H. P. Belmont, standing near, applauded her sentiments and said they, too, would wash their hands of the monkey game if they could.

Mrs. Louise L. Cobb chaperoned a Narragansett Pier party to Elm cottage the other night. Consul was an honored member, and the intelligence he displayed in betting at roulette baffled the less fortunate members of the party.

"Ice Cream" May Become Obsolete.

The enforcement of the latest food law bids fair to make the "ice cream" obsolete at York, Pa. Manufacturers and dealers have practically all decided to term their frozen delicacies "cream ices." They say they cannot adhere to the letter of the law in manufacturing a product containing 20 per cent of butter fat and no coloring matter without increasing prices or losing money. People in York, writes a correspondent of the Philadelphia Record, appear to be very well satisfied with the quality of the alleged ice cream sold by local dealers, and the dealers say that if they are willing to eat it under a new name they can have it at the same price. One dealer who refuses to join with the others will charge 10 cents a gallon extra and preserve the time honored term for a time at least.

A Roosevelt Story.

A newspaper correspondent tells a story which he says President Roosevelt related to a few of those seated closest to him at a recent dinner. Here it is, says the Washington Herald: Two women were discussing some new neighbors who had moved into one of the most sumptuous houses in their city. "They seem to be very rich," said the first. "Oh, yes, they are!" replied the second. "Shall you call?" asked No. 1. "Decidedly," was the answer. "Are you quite sure that they are—quite correct, quite—good form?" inquired the woman who had started the conversation. "Oh, my dear, I'm quite positive about it," said her friend. "They have thirty servants, eighteen horses, twelve dogs, eleven automobiles and one child."

New Point In Favor of Golf.

To the endless virtues claimed for golf Mrs. Wadge Kendal, the actress, has added another, according to a London cable dispatch to the New York Sun. In presenting a cup won in competition she admitted that personally she knew nothing of golf, but understood that it was a game highly commended by excellent mothers, who found it made their daughters so tired that when they got home they went straight to bed.

THE DYSEPTEIC

The dyspeptic suffered a relapse the other day and presented the Advocate man on his rounds today with the following oddities:

At a recent meeting of the Civic Improvement League which was largely attended, some one in the rear of the hall arose and asked the fool question whether or not mustache dye is a proper means of civic improvement. By unanimous consent the matter was referred to his honor for a veto.

We regret to notice that Brother M. R. Scott's mind is sadly torn with perplexity as to how to vote on the propositions to buy the old water works.

One of our Hudson avenue "quality" who must have belonged to the Ancient and Accepted Order of Wags, claims that the peak-a-boo waist of the large mesh variety is intrinsically attractive. He said he caught himself in an observant attitude the other day when his wife wore one.

Don't you hate to see the mother instinct wasted and debased by idolatrous attachment to a poodle dog or a teddy bear? Did she but realize that it is the God-given instinct of motherhood that draws her to the unworthy thing, the woman would be astonished at herself and would cast it from her. In Japan it appears to be every woman's right, without the necessity of a license and without dishonor, to have and to hold the tiny object of the mother love. Of course in some things we are away ahead of the Japanese.

About a week ago a bald headed man applied to one of our suburban drug stores for a bottle of hair restorer. The accommodating druggist gave him a bottle with the flip guarantee that he would be hustling for a hair cut in a week. In five days he came back with the complaint that instead of raising hair, the stuff had raised a couple of bumps on the top of his head. After carefully examining and smelling he bottle the customer had returned, the druggist declared with evident embarrassment that he had made a mistake and given him a bottle of hair developer instead of a hair restorer.

Some people are a "bundle of nerves"; others are a ganglion of impulses. These are mere descriptions of extremes of temperament sometimes met with, which may have resulted from the sin of an ancestor. The stories told of Richard Mansfield, now very ill, are in point. When the Washington monument was being erected a young girl who wouldn't take a dare, jumped off the top and

was caught by a net placed to catch workmen who might fall or be blown overboard. The same thing is illustrated in the following incident which the dyspeptic could not have imagined: In the smoking compartment of a Pullman sleeper speeding from the city of New York to the mountains the other day, sat a Jew, a lawyer, and the spoiled scion of one of America's exclusive families. The Jew was a heavy, pudgy man—big hands, feet and girth. He had heavy jaws, ears generously unfurled and an immensely thick, short neck. His eyes were bulgy and close together, and his lips though thin, protruded. His face when in repose wore an expression which might be described as a look of internal pain coupled with a determination not to cry out. A mole on his left cheek was as large as a hazelnut. He sat on the leather cushioned seat as though he were settling into it. But the striking feature of his singular visage was his little bullet-shaped head—about a 5 and 3-8 or 6 hat measure.

The young man was a typical aristocrat, wealthy, a mamma's boy, yet 25 years of age. His family had miles of drives at their Sea Girt es-

tate, where they were greatly annoyed by trespassers. He quite preferred a Panhard motor—indeed the whole family much preferred cars of French make. His mother owned a De Dion car, his brother a Fiat and his father a Renault, etc., etc. He spent most of his time autoing "don't cher know," in New Jersey in summer and in Florida in winter, yet he didn't know the difference between the carburettor and the transmission.

The lawyer was tall and thin. His cranial cavity had so frequently become "hot-box" from strenuous and combative thinking that but little hair remained on the top of the dome. He wore glasses and looked like our own Norpell, whose fine face recently appeared in the Ohio Magazine. His face had that compact and drawn look that stamped him as a veteran in many litigious wars of war.

The men were strangers and no conversation had passed between them. After a quarter of an hour of silence, suddenly the Sea Girt aristocrat jumped from his seat and without a word delivered Mr. Jew a resounding smash with his open hand on the side of his face, and then flew

to the door of the smoking room. "Vat did you mean by such a ting?" howled the Jew in German accents, foaming and fuming with anger. The young man looked bewildered as if just beginning to realize what he had done, and the enormity of it and stammered out:

"Oh, I beg pardon, sir; I did not mean any harm."

"Vell, vat the ass—did you do it for?" asked the aristocrat getting madder and looking more terrible every minute, and then received from the young fellow this unique reply as he disappeared into his car—and I think he told the strict truth: "I did not like the shape of your head, sir."

The other day an East Newark woman found a watch while walking along the street. She reported the find to her employer and was told that the owner would probably advertise for it in the Advocate. Sure enough, this notice was published:

Lost—A lady's gold watch, Waltham make; initials X. Y. Z.; \$10 reward, return to—

The watch finder saw the advertisement and yet kept the time piece. The "lady of the house" commented upon the fact, and approaching the queen of the kitchen asked if the advertisement didn't answer her description of the article she had found. "Why, yes," was her answer, "but I think the watch is worth more than the reward."

And I guess it was.

GERMAN YACHTSMEN AGAIN WIN SONDER-
KLASSE RACE.

THE WANNSEE

Kiel, Aug. 20.—The Wannsee,
splendidly handled by Herr O. Prot-
zen, won the Sonderklasse race, beat-
ing the Marblehead, sailed by H.
Summer Foster, by 1m. 21s. with the
Wittelsbach a close third. This is the
third German yacht to win in this
competition, and the Americans, if
they are to have a chance for the Em-
peror's cup, must begin at once.

The Americans find the winds in
the Baltic too heavy for the boats
built for the light airs that usually
prevail off Marblehead. German
yachtsmen are astonished at their
successful victories, which quite re-
verses their experience in America
last year.

MISS HUGHES RETURNS.

Columbus, Aug. 21.—The Dispatch
girls arrived home from Europe this
morning having stopped at Niagara
Falls on their way from New York.
They are in fine health and spirits.
The girls said they had been badly
treated by some of the foreign news-
papers.

"They thought that we had all been
selected for our beauty," said Miss
Edith Hughes, of Pataskala, "and
then they began to pick flaws in our
looks. Then they called us 'Buckeye
daisies,' and when we objected to
that they changed it to 'Buckeye
beauties.'"

"The young women were not at all
complimentary in their comments on
men and manners abroad. Miss
Margaret A. Naddy voiced the senti-
ments of all when she said:

"I do not understand how an Amer-
ican girl can marry a foreigner,
even if he has a title. Not one of us
would marry any of them, I am sure.
We realize more than ever the man-
hood of the American man."

"The Parisian women impressed
me as animated dressmakers' models.
It is positively repulsive the way they
paint. The French are said to be not
artistic, but the women certainly do not
paint artistically. I think the Ger-
man men are the finest physical spec-
imens that I ever saw in any country,
not excepting America."

Miss Ida March declared with some
spirit that "the men on the other
side do not compare with our Amer-
ican men."

CENTERBURG TOURISTS.

ners in a contest held here.

CURTIS JAMES
FIRED UPON BY
MAN ON RAMPAGE

DENNIS ROWEN, THIRSTING FOR
VENGEANCE "SHOOT'S UP"
DELAWARE.

But One Bullet Took Effect and the
Policeman Got That—Lynching
Nearly Resulted.

Dennis Rowen, of Delaware, thirst-
ing for vengeance went on the ram-
page in Delaware last night, and be-
fore he was knocked out, shot Day
Chief Ruder of the police department
through the arm and took shots at
several other men, among them being
Curt James, a saloonist of this city.

Rowen was arrested in April, 1902,
for burglarizing the saloon of Patsy
McCarthy, and removing from the
cash register five \$5 gold pieces. He
was arrested by Officer Ruder and at
his arrest was bound over to the
grand jury. During his trial his aged
mother took the stand and testified
that the five dollar gold pieces he had
been spending were given to him by
her. After a short consultation the
jury acquitted him. Then he left
Delaware and for five years nothing
was seen of him. A short time ago
he returned to his old home and be-
gan drinking heavily.

Last night crazed by drink, he
armed himself with revolvers and
started out on the war path. Passing
the police station he recognized in
Chief Ruder the man that had ar-
rested him several years before. Tak-
ing careful aim at the unsuspecting
officer, he cried, "Here's where I get
even with you," and fired, the bullet
entering the left arm of his victim.
The chief staggered into the station
for a weapon to defend himself, and
Rowen, leaning through a window,
fired two more shots at him, with-
out taking effect.

Running away from the station, he
saw H. H. Miller, an undertaker, and
fired twice at him. Shouting and
running down the street he encoun-
tered Curt James or this city, walk-
ing with Joe Bookman and without
warning, fired twice on him. Night
Chief Spaulding, hearing the shots,
rushed up from behind and struck
him with his blackjack, and hand-
cuffing him took him to jail.

A crowd quickly gathered, and for
a time a lynching was feared, as
threats could be heard from all sides.
A strong guard of policemen was
placed to guard the city prison and to
disperse the crowd.

All the services of the quarterly meeting at Liberty were well attended, and program carried out as announced last week. The pastor, Rev. Mr. Hart, was taken suddenly sick and was unable to be present, but his wife represented him.

Rev. Mr. Hart is closing a very successful year, having repaired and added to the old parsonage at a cost of about \$1300, which is all paid.

LABOR TROUBLES AT HIGH SCHOOL CONSTRUCTION

STONE CUTTERS WON'T ALLOW
STONE MASONS TO SET
THE STONE.

Brick Layers Refuse to Work if Cutters Set Their Own Stone — Union Rules Conflict.

The work on the new high school is almost at a standstill and all because two unions are antagonistic to each other and their work conflicts in a way.

The trouble started Tuesday when the stone cutters declared that they should be allowed to set their own work, that it was right for them to do this and it was not a part of the stone masons' work. They refused to work unless their demands were complied with. The brick masons, out of sympathy with their brother masons, left the job yesterday, but are back at work today, while in turn the stone cutters have gone out on a strike.

Contractor Hugh D. Bord, rather than have the work tied up at this time, decided to lay the stone masons off, which he did today. This morning a man arrived at the job and claimed he was a union stone cutter and stone mason, but that his card was in Wheeling, and that he was five months in arrears. The stone cutters since he claimed to be a member of their union decided to let him go ahead with the work, if he would pay up his assessments due the union in the five months they lapsed. The brick masons said in turn that if the man would put up \$25, guaranteeing that he was a union man they would let him work and he could send for his card, then the money would be refunded to him. This he refused to do, and the stone cutters left the work.

Contractor DeBord has tried to effect a compromise between the two unions, but so far has been unsuccessful in his attempts. The cutters say that unless the agreement is reached tonight many of them will leave town and go in search of greener fields.

The contractor has tried to make a union job out of it altogether and is doing all he can to have the men work in harmony, but the outlook for a complete tie-up is bad and unless the heads of the two unions get together and reach an agreement the work may be stopped for some time.

PROPOSED TO GIRL IN CHICAGO JAIL

Chicago, Aug. 21.—"Say, lock-up keeper, go over to the woman's department and ask Miss Peterson if she cares enough for me to marry me, and then let me know what she says."

Patrick Durney, lock-up keeper at the Desplains street police station, carried this strange proposal over made across the cell room to Miss Christine Peterson, 20 years old, from Milwaukee. She sent back the reply: "Yes, if he promises to be good and love me always."

Today Municipal Judge Himes was asked to marry Miss Peterson and Matthew McNeirney, who used his suit from behind the bars. The girl is the daughter of August Peterson, a lumber merchant of Frankfort, Mich. Three years ago she ran away from home. She was held as a witness in a police case. McNeirney had been held on the same charge.

FEAR GENERAL RISING OF ARABS

Fresh Onslaught of Tribesmen Repulsed With Loss.

CONSULS ABOUT TO QUIT FEZ

Warships Hold Back the Moors, and Are Ready to Embark Europeans. Officials Admit Critical Situation Exists — Latest From the Scene of Strife.

Casablanca, Aug. 21. — The Arabs have delivered another attack upon the French force under General Drude, encamped outside this town, but they were routed with very heavy losses. A general uprising of the natives is expected. The European residents of the coast towns, as well as those who live at Fez, Morocco city and other places in the interior, are leaving their homes and seeking safety in flight.

Paris, Aug. 21. — Vice Admiral P. Hilbert reports intermittent artillery fire at Casablanca, both from the land and the sea, to quiet the tribesmen back of the town. Quiet prevails at the other Moroccan seaports. The

warships are ready to embark the European residents should necessity arrive.

General Drude telegraphed asking for reinforcements. A dispatch from Casablanca confirms the report that Mulai Hafig, brother of the Sultan of Morocco, was proclaimed sultan on Aug. 16, in the mosque at Morocco city. This indicates a revolt against the indecision of the sultan, and a revival of fanaticism is bound to follow. Mulai Hafig will raise the green banner of the prophet and be followed by half the empire.

Consuls to Leave Fez.
San Sebastian, Spain, Aug. 21.—Count DeAlfende Salazar, the foreign minister, has announced that Great Britain, France, Germany and Spain have instructed their respective consuls at Fez to leave, together with their countrymen, when they judge the situation to be dangerous.

BRAZIL KICKS
Given Low Place in Classification of the Nations.

Rio Janeiro, Aug. 21.—The proposition presented to the peace conference at The Hague by the American and German delegations on the subject of the proposed organization of a permanent court of arbitration and an international prize court have caused an unfavorable impression in official circles here, especially in regard to the classification of the countries to be represented. It has been proposed to determine the classification of the nations and their representatives on the arbitration court on the basis of population and to make the total tonnage of a country's merchant marine the basis of representation in prize court. In spite of these propositions, Brazil, with 25,000,000 inhabitants, was placed first among the states of the third class, while Turkey, with 24,000,000, Spain with 15,000,000 and Holland with 5,500,000 were placed in the second class, over Brazil. The 17 Spanish American republics, among them being Peru and Colombia, each with 5,000,000 inhabitants, were placed in the last class, on a level with the principality of Montenegro with 227,000 inhabitants and Luxembourg with 222,000. As to the prize court, Brazil was placed in the first class, under European countries having less tonnage, varying from 15,000 to 11,000 tons.

Cause of Desertions.
Washington, Aug. 21.—The annual report of Gen. General A. W. Greely, commanding the northern division of the army, which includes the departments of the lakes and Dakotas and Missouri, says that the main reason for desertion, according to the universal opinion of a large number of commissioned and noncommissioned officers, was the small pay, secured by the lack of the canteen and resultant trouble in dives surrounding the army posts, and "the low standard and general worthlessness of recruit."

The moral deterioration of the army, characterized as a corollary of the small pay given men.

A Lovely Complexion Without Powder or Rouge

When a woman reaches the point where she is under the necessity of using powder and rouge, it is a virtual admission that her complexion is deteriorating. Be it said to her credit, she usually uses these makeshifts under force of necessity. She would gladly dispense with them, but all too well she realizes that fully half of her beauty would be gone.

The following face wash, now in almost universal use among Parisian women (and their matchless complexions attest its efficacy) will restore clearness of skin and delicacy of tint to the plainest of complexions if applied daily.

Obtain at your drug store: Rose Water, 2 ounces; Cologne Spirit, 1 ounce; Epsom salt (taken food) 4 ounces. Put the Epsom salt in a pint of water (not boiling) and after dissolved, strain and let cool. Then add the Rose Water and Cologne Spirit. It is quite an easy matter to mix the ingredients according to above directions, and can best be done at home.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and All Organic Diseases, and is invaluable in the Change of Life. It Nervous and Expels Tumors at an early stage. Subdues Fairness, Cures Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female system. It is an excellent remedy for derangements of the Kidneys in either sex.

PRINCE WILHELM OF SWEDEN TO BE GIVEN ENTHUSIASTIC WELCOME.

KING OSCAR OF SWEDEN.

Norfolk, Va., Aug. 21.—With the mantle halo of recent betrothal hanging over his prestige of the royal house of Sweden giving him distinction, Prince Wilhelm, grandson of King Oscar of Sweden, is to be the Central figure at the Tercentennial Exposition next week. The "Sailor Prince," as he is affectionately called by his countrymen, expects to spend only a few days here, but these days will be crowded with events that will be memorable alike to him and to his hosts.

Dividing admiration and attention with the visiting Prince will be the fine armored cruiser Fylgia, on which he comes to this country. This great war craft and its royal passenger are to receive their official welcome tomorrow, and it will be an occasion to gladden the hearts of all loyal Swedes in this country and in the neighborhood. When the floating armory, with its big guns looking out from the sides of the hull, steams down Hampton Roads glasses will be trained to catch

sight of the scion of the Bernadottes; flags of the American Union and other nations will extend their courtesies to the men of the Northland.

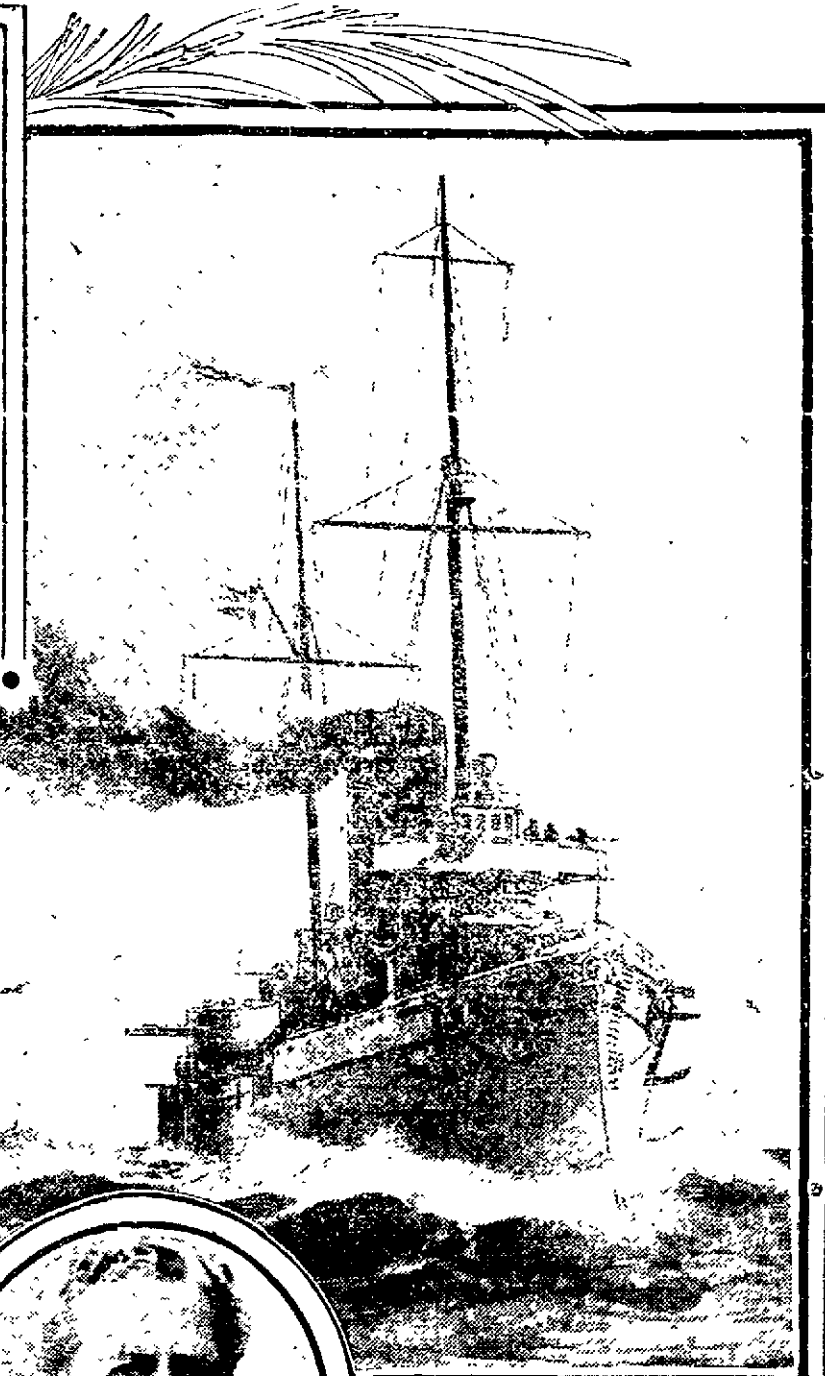

It will be the first visit of the Fylgia to American waters. Likewise it will be the first trip to this country of a Swedish Prince of the ruling house. When King Oscar, through President Roosevelt, was invited to participate in the Tercentennial Exposition he decided that his overment must be represented by the government of his family. The invitation was carried to Sweden by Mr. Charles W. Kohlsaat, commissioner general of the exposi-

The experience related below shows how a lady suffered from a most unfortunate case of ulcerated pimples, blackheads and unhealthy condition of her skin. It also shows the remarkable restoration to the natural, clear, soft and velvety complexion which she was entitled to enjoy:

I was ashamed to go into society with such a terrible face. After using your treatment, I am proud of my complexion, for the pimples and blackheads have disappeared and my skin is soft, smooth and fairer than ever before. Feeling very grateful for such beneficial results I gladly recommend your valued remedies to any one afflicted as I was."

HUSBAND FAILED TO KEEP PROMISE

NOW HIS WIFE IS PETITIONING
THE COURT FOR A
SEPARATION.

Charges Assault and That He Threatened to Kill Her—Divorce and Alimony Asked.

Edna C. Norris has commenced a suit in the Probate court for divorce from George Norris, to whom she was married on May 7, 1903. For cause of action Mrs. Norris charges her husband with extreme cruelty. She says that on May 11, 1907, he assaulted her; that he struck, kicked and threw her out of her home and threatened to kill her. She says that on May 18, 1907, she filed a petition asking for a decree of divorce from her husband, but that on promise of her husband to be good she resumed her marital relations with him, but it was not long before he again assaulted her and threatened to kill her. She also charges her husband with infidelity and habitual drunkenness. She says her husband is a dangerous man, and that her life is in danger while living with him as he fears that he will kill her; that he is the owner of property valued at five or six thousand dollars and that his income amounts to about \$150 a week, and that it is the intention of her husband to dispose of the property and prevent her from obtaining any benefit from it. She asks for divorce and alimony and that the defendant be enjoined from disposing of any of his property, pending this action and that she be allowed temporary alimony to pay her attorneys' fees and expenses of this action. Smythe & Smythe, attorneys for the plaintiff.

Divorce Granted.

The case of Olive M. Inlow against Archie L. Inlow, suit for divorce, was tried in the Probate court Wednesday morning. Arthur S. L. James represented the plaintiff and Smythe & Smythe the defendant, who had filed an answer in the case but who made no contest. The parties to the contest are prominent people of Franklin township. They were married five years ago and two children one four years old and the other two years old were born of the marriage. Plaintiff charged her husband with extreme cruelty and gross neglect of duty, which charges were borne out by the testimony. The court gave a decree and the custody of the children to the mother.

Keller Road Case.

The Keller road case, which was appealed by Mrs. E. M. P. Brister and George Crawford, was decided by Judge Seward holding that the whole case had been appealed, both as to the regularity of the proceedings and upon the question of compensation and damage. He further held that the proceedings before the county commissioners had been substantially correct. Error will be prosecuted by J. F. Keller and others. J. R. Fitzgibbon for the petitioners. Kibler & Montgomery for Mrs. Brister, and J. B. Jones for Mr. Crawford.

Brief Petition.

One of the briefest divorce petitions that was ever filed in the courts of Licking county, was that of Martin Friend against Aurelia Friend. It consists of 74 words and briefly states that the parties were married in October of 1884 and that no children were born of the marriage. Wife's absence is charged and Smythe & Smythe are the attorneys for the plaintiff in the case.

Allowed Alimony.

In the case of Emma R. Coyle vs. John O. Coyle, suit for alimony and contempt in failing to comply to a former order of the court, the defendant was ordered to pay \$25 forthwith which was done. He was also ordered to pay the plaintiff \$10 per month, beginning September 1. Kibler & Montgomery, attorneys for the plaintiff; Smythe & Smythe for the defendant.

Motion to Strike Out.

In the case of Arthur Trigeux vs. the Central Window Glass company the defendant has, by his attorney Robbins Hunter, filed a motion to strike out certain phrases in plaintiff's petition, because they are irrelevant, redundant and matters of evidence and not matter to be pleaded.

FOUR VICTIMS OF THE FLOWING
BOWL GIVEN CHANCE
TO REPENT.

Granville Man With New Suit, Celebrated and Slept on the Sidewalk. Police News.

Four gentlemen of more or less leisure were the guests of the city last night, and this morning they are peared before their host and paid for their night's lodging. Cecil Bowman was found by Officer Ziegler in a very dilapidated condition from continuing with too much booze. He drew five and costs and will crack a little stone for the city.

Frank Ross got some happy water on board and took a little nap in the street. Captain Bell happened along and Frank took a little ride in the city's new wagon. The usual fine.

Billy Moore came over from Granville yesterday and bought a new suit of clothes. Wishing to celebrate he hunted up the kind of places they don't have in Kansas, and got polluted. About midnight Captain Bell and Officer McClure found him sleeping quietly by the lumber yard on Locust street. The patrol was called and he spent the night in jail. A gold watch, a razor, a knife and \$3.26 was found on him. He drew \$5 and costs and paid.

Zon Akem Roumanian glass worker, put a few cold ones under his belt and rammed around until stopped by Captain Bell and Patrolman Greeley. Five and costs for prowling.

Develops, strengthens and cures lost vigor. Positively no failures. Physicians indorse and use it in their practice. If you are the least skeptical as to the value of this remarkable treatment, send for illustrated circulars, take them to your family physician and get his opinion. This is the first time any one has requested you to take his circulars to your family physician. Why? Simply because he knows your physician will not recommend his treatment. Not so with this appliance. Your doctor will immediately grasp the idea, and when he does, he will recommend it. Nothing like it has ever been sold before. It works the same on every individual. Send to-day for free descriptive circular of this wonderful instrument. The moment you see it you will realize its possibilities. No C. O. D. or free trial schemes to catch the unwary. TOBACCO AIDS DIGESTION SAYS CLEVELAND MAN

Cleveland, O., Aug. 21.—Users of tobacco, remove your lids to one Martin Friedrich, Cleveland's health officer, and also a one T. A. Burke, county coroner. Upon the following these physicians are agreed:

"Tobacco is an aid to health. It is a help in more ways than it is a hindrance.

"The use of tobacco after eating brings a beneficial contentment and peace of mind.

"The use of tobacco promotes digestion by increasing the flow of saliva. It is a positive aid to digestion.

"As a sedative it offsets the stimulating effects of coffee and tea, keeping the system in better balance.

"Tobacco never killed a man. Tobacco never caused insanity.

"Cigarettes never harmed a person seriously. We doubt if they ever harmed a person at all. The cigarette is a very convenient thing upon which to place the blame for insanity among comparatively young persons. Very convenient, we repeat. It is not necessary for the medical profession to go into detail. Ask your family physician if you want details.

"A man can chew one pound of tobacco every day and do various other things and still be sane.

"Excessive tobacco chewing and excessive drinking do not always give a man a brainstorm."

Judge Hadden so held when he discharged from custody Anton Geisler 58 years old, a former gardener for Rockefeller at the Oil King Forest Hill estate.

MUCH ACTIVITY IN GAS BUSINESS

Some idea may be had of the extensiveness of the Ohio Fuel Supply company's drilling in the Knox-Licking field this summer when it is stated that the Hagan Drilling company has at this time 13 wells under way.

The Hagan company with headquarters in Mt. Vernon, commenced a well for the Ohio Fuel near Jeromeville, Ashland county, Tuesday morning.

The Logan company is about as busy as is the Ohio Fuel and before the season for drilling closes scores of new wells will be completed.

Each of these companies has wells in progress in territory that is regarded as new and before winter the size of the field will doubtless be enlarged.

HORSEMANSHIP IN WILD WEST SHOW TRULY WONDERFUL

One does not realize how important a part the horse takes among the nations of the earth until they are assembled in various groups to be seen at one time. To see all the various representative horsemen comprising the Rough Riders with Buffalo Bill's Wild West in their native land one must travel all over the world. By mail and extraordinary enterprise, Col. Wm. F. Cody has gone on year after year adding to the personnel of his wonderful exhibition until the limit has about been reached. It is therefore a rare privilege to see representatives of all the equestrian nations of the entire world in one exhibition for the contrasts in their riding methods is in itself an object lesson to be learned in no other way. This year the Wild West presents a small army of Indians, Cowboys, American Cavalry and Artillery, German Cuirassiers, Japanese, Irish Lancers, Royal English Dragoons, Mexican Arabs, Russian Cossacks, Mexican Vaqueros, South American Gaudes and a group of Western girls. Every person on horseback with the Wild West is just what he is represented to be, and many of them traveled thousands of miles over land and sea to join the big organization when it began its present season in New York City. In a few years it will be impossible to gather representatives of all these various groups of horsemen and as realism is the life and soul of Buffalo Bill's Wild West, the exhibition must end when its material is exhausted.

Teeth are Guardians of the Stomach

Let the teeth fail in their function of mastication and the stomach must do double duty. It is forced to. Double duty will wear out the strongest person or the healthiest stomach.

It costs little to have good teeth if you have their needs attended to promptly by a reliable dentist. Consult us regularly about them.
